## WELL WORTH READING.

Something in This Column That Will  
Interest Every Body.

Something to Remember.

When in every country there are un-  
cultivated lands and unemployed poor,  
it is clear that the rights of property  
have been so far extended as to violate  
natural rights; for the earth is given  
as a common stock for man to labor upon  
on it.—Thomas Jefferson.

The Reason why.

The fact that many men are occupied  
in making clothes for one individual is  
the cause of there being many people  
without clothes."—Montesquieu.

London Municipal Ownership.

London wanted a sewer constructed  
and the engineer estimated the cost of it  
to be \$25,000; the contractors offered to  
do it for \$5,000; then the city went  
ahead and did the work for \$25,000.

Prosperity in France.

The fact has developed that the girls  
in San Francisco laundry work from  
7 a. m. to 10 p. m., for 30 cents a  
day.

Another Phase of It.

Eleven suicides in 48 hours in St. Louis  
ought to make McKinley proud of his  
prosperity and Dingley talk louder of his  
tariff.—Appeal to Reason.

The Children's right.

It is the Right of every child to be well  
born.—Francis Willard.

An Embarrassment of Blouses.

The wealth of John D. Rockefeller  
has now reached the sum of \$244,000,-  
000, and furthermore is increasing at the  
rate of \$1,500,000 a month, or \$50,000 a  
day, or \$3,000 an hour, or \$32,000 minutes,  
or 57 cents every second of time  
day and night Sundays and holidays. No  
wonder the man calls on the churches and  
colleges to relieve him of some of his  
riches.—Utica press.

Hanna's Galley Slaves.

The men employed in Senator Hanna's  
ship yards are on strike. The laboring  
masses elected Hanna. It is said while  
the flag was flying over their heads in  
announcing that Hanna was elected, "the  
country saved and God still reigns,"  
they were shivering under its shadows for  
an existence.—The Labor World (Dubuque,  
Iowa).
